## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Renne (2,518,181).

Renne discloses (Fig. 1-10) the invention including an outer cutter 88 having an interior surface (bottom part, see Fig. 3) and an outer circumferential side surface 90, an inner cutter 80 having a rotating side surface 92, a gap (see Fig. 3, the top left side razor device where is a gap between the cutters), and a center of said outer cutter and a rotational center of said inner cutter are offset (70 and 72).

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Collins, Rand, Jr., Scully, Anton and MacCarthy are cited to show related device.
